Integrated Ag Services is seeking an individual to operate field tractor with attached automated soil sampler. Soil samples are collected by machine to be analyzed for nutrients and submitted to our farmer clients. Your day would consist of driving the tractor/ soil sampler to each field that needs sampled, collecting the soil samples, resupplying the machine, and troubleshooting any issues. The service area is primary central Ohio with limited travel to Indiana and upper New York. Further details include the following:

- Class A CDL required to transport tractor when traveling
- Position may require 10–12-hour days up to 6 days a week. Rain days are likely off or for maintenance
- Some mechanical abilities needed to fix small issues in the field and to understand how the machine operates
- Some hand sampling with four-wheeler if soil is too wet for a tractor
- Attention to detail
- Able to work alone but still part of larger team
- Summer field scouting using drones if qualified for full time
